

# PROTEK® WILDSTAR Wildland Suit

New Wildland Firefighting Suit is designed to fulfill all demanding applications for wildland firefighters. Everyone must take into account the suits general use and acceptability in real world applications. It must protect, yet be comfortable and durable, as well as affordable. PBI Performance Products has created an innovative high performance, 4 fiber blend of PBI, high strength aramid, Lenzing FR® and antistatic fiber, which effectively addresses all these considerations – PBI Triguard. For superior protection, comfort, and durability, it's the new standard in value and performance. Flame resistance is inherent in the fibers, and therefore is not affected by washing or dry cleaning.

### Main features:

- Material: PBI TriGuard™
- PBI TriGuard™ affords lightweight COMFORT.
- PBI TriGuard™ affords workplace SAFETY.
- PBI TriGuard™ affords better fabric INTEGRITY.
